## ABOUT THE STAT BLOCKS

---

The stat blocks included here, and in the *Pathfinder Roleplaying Game Monster Codex*, present a wide array of kobold stat blocks to use within and outside of the traditional kobold organisation structure, as outlined for their entry in the *Pathfinder Roleplaying Game Bestiary*. Given there are kobold stat blocks in the MC, it seemed a wise idea to include a reference to them in the stat block listing for ease of reference.

In the traditional structure for kobolds, the following stat blocks are relevant: kobold clan leader, kobold leader, kobold sergeant, skilled kobold adept, skilled kobold warrior, and the stat blocks of CR 1/4 and 1/6. These stat blocks represent those of basic kobolds with levels in NPC classes. Such kobolds might be those kept as slaves to more powerful races, or groups of kobolds which are untrained and less wealthy than other tribes.

Do not feel constrained to keep to this structure, however. If you have an idea for a cool encounter, feel free to use what you like. Some of the stat blocks, such as the mining specialist, trap specialist and providers, perform special skilled functions for kobold society, and might be found in kobold cities or cities including other races. In particular, the providers might be hunters, animal handlers and/or farmers for kobold communities, ensuring their food needs are met; they typically have other kobolds working under them.

Finally, kobolds are traditionally a lawful evil race, but GMs should feel free to have some of these kobolds be of lawful neutral alignment, to have some fun roleplaying encounters.

## KOBOLDS

Kobolds are creatures of the dark, found most commonly in enormous underground warrens or the dark corners of the forest where the sun is unable to reach. Due to their physical similarities, kobolds loudly proclaim themselves the scions of dragonkind, destined to rule the earth beneath the wings of their great god-cousins, but most dragons have little use for the obnoxious pests.

While they may speak loudly of divine right and manifest destiny, kobolds are keenly aware of their own weakness. Cowards and schemers, they never fight fair if they can help it, instead setting up ambushes and double-crosses, holing up in their warrens behind countless crude but ingenious traps, or rolling over the enemy in vast, yipping hordes.

Kobold coloration varies even among siblings from the same egg clutch, ranging through the colors of the chromatic dragons, with red being the most common but white, green, blue, and black kobolds not unheard of.

**Environment** temperate underground or deep forest

**Organization** solitary, gang (2–4), nest (5–30 plus equal number of noncombatants, 1 sergeant of 3rd level per 20 adults, and 1 leader of 4th–6th level), or tribe (31–300 plus 35% noncombatants, 1 sergeant of 3rd level per 20 adults, 2 lieutenants of 4th level, 1 leader of 6th–8th level, and 5–16 dire rats)

**Treasure** NPC gear (leather armor, spear, sling, other treasure)

### KOBOLD CHARACTERS

Kobolds are defined by their class levels—they do not possess racial Hit Dice. A kobold with NPC class levels takes a –3 penalty to its CR (rather than the normal –2 penalty). All kobolds have the following racial traits.

- **Stats:** –4 Strength, +2 Dexterity, –2 Constitution:  
Kobolds are fast but weak.

- **Small:** Kobolds are Small and gain a +1 size bonus to their AC, a +1 size bonus on attack rolls, a –1 penalty to their CMB and CMD, and a +4 size bonus on Stealth checks.
- **Normal Speed:** Kobolds have a base speed of 30 feet.
- **Darkvision:** Kobolds can see in the dark up to 60 feet.
- **Armor:** Kobolds have a +1 natural armor bonus.
- **Crafty:** Kobolds gain a +2 racial bonus on Craft (trapmaking), Perception, and Profession (miner) checks. Craft (trapmaking) and Stealth are always class skills for a kobold.

- **Weakness:** Light sensitivity.

- **Languages:** Kobolds begin play speaking only Draconic. Kobolds who have high Intelligence scores can choose any of the following bonus languages: Common, Dwarven, Gnome, and Undercommon.

## READING STAT BLOCKS

---

*100% Crunch:* Kobolds includes all necessary stat blocks; these notes explain how to read them. Unless otherwise noted, all listed scores include all the creature's normal modifiers. Stat block appear in four sections: basic, defensive, offensive and supplemental.

### BASIC

**Name, CR and XP:** The monster's name appears first followed by its CR and how many experience points it is worth. If more than one creature is encountered, a bracketed number lists how many appear.

**Appearance:** The GM can read aloud or paraphrase this section. If a picture depicts the creature, this section may be omitted.

**Sex, Race, Class and Level:** If the monster has class levels these appear here along with its race and sex. The first noted class is the creature's favoured class.

**Alignment and Type:** The creature's abbreviated alignment and its type (including applicable subtypes).

**Init and Senses:** This creature's initiative modifier appears before any special senses (such as scent or darkvision) and the creature's Perception and Sense Motive scores. If the creature has special Perception-based abilities, such as trapfinding or stonecunning, these appear here.

**Speed:** The creature's modified land speed appears first along with any other relevant speeds (such as climb or fly). If the creature's base land speed is different to its modified speed this is also listed.

**ACP and Movement Skills:** ACP presents the creature's normal armour check penalty modifier. If the creature's Acrobatics, Climb, Escape Artist, Fly, Ride, Stealth or Swim modifier differs from the relevant ability modifier minus its armour check penalty, these skills appear here.

### DEFENSIVE

**AC:** The creature's normal, touch and flat-footed AC along with its CMD; additionally this section lists any defensive powers or abilities that affects the creature's AC.

**Immune, Resist and Weaknesses:** If the creature has immunity, resistance or a vulnerability to an effect or condition it appears here.

**Fort, Ref and Will:** The creature's saving throw modifiers along with any conditional modifiers and defensive powers (such as evasion) and spell resistance appear here.

**HP:** The creature's full, normal hit points along with the number

of hit dice it possesses. A bracketed hit point total indicates that the creature is injured. If the creature has damage reduction or hardness it appears here.

### OFFENSIVE

**Space, Base Atk and CMB:** The creature's space, base attack bonus and CMB.

**Melee:** This section lists a creature's melee attacks. If the attack has a reach that is not 5 ft. it is listed here. This line also lists any specific feats a creature can use with the attack (for example Power Attack), but the effects of these feats are not included in the attack's statistics. Each attack includes attack bonus and damage information. If the attack has the default critical hit characteristics (20/x2) this information is omitted.

**Ranged:** This section lists the creature's ranged attacks. It always includes the attack's range. Each attack includes attack bonus and damage information. This line also lists any specific feats a creature can use with the attack (for example Point Blank Shot), but the effects of these feats are not included in the attack's statistics. If the attack has the default critical hit characteristics (20/x2) this information is omitted.

**Atk Options:** This section lists any abilities or feats that can affect more than one of the creature's attacks, unless it has already been presented with the creature's specific attacks. Subsequent listings describe all but the most basic abilities in depth.

**Special Actions:** This section lists any useful abilities that a creature could use in battle. Subsequent listings describe all but the most basic abilities in more depth.

**Spells and Spell-Like Abilities:** The creature's caster level, along with its concentration modifier and domains appears in brackets before the main spell listing. If one or more of the creature's spells require a touch attack, the relevant attack bonus is included. Spells available appear in reverse order from highest to lowest level. Spells denoted <sup>D</sup> are domain spells. If applicable, a spell's DC is also provided.

**Combat Gear:** This section lists any combat-related equipment the creature possesses.

### SUPPLEMENTAL

**Abilities and Special Qualities:** These sections list the creature's ability scores and any special qualities that do not appear anywhere else in its stat block.

**Feats:** An alphabetical listing of all the creature's feats.

**Skills and Languages:** These sections list any skills the creature possesses that have not already appeared in the stat block and all languages spoken or understood. Any language-based special abilities also appear here.

**Gear:** This section lists any gear not already listed in the creature's stat block. This section hardly ever contains weapons or armour as they usually appear in the relevant sections above.

**Spellbook:** The contents of the creature's spellbook and its opposition schools.

---

---

### SPECIAL ABILITIES

Special abilities appear in the section to which they are best suited. Thus, offensive abilities appear with a creature's attacks while defensive ones appear with its other defences. Full write-ups of irrelevant powers (such as those that could not affect combat) are omitted. The effects of abilities that factor into a creature's normal attacks or defences have already been included in the relevant calculations.
