

Blues in G

Tenthumbspro.com
For educational purposes only

Key: Blues in G

Tempo: Any tempo

Chords needed: G7, C7, D7

Video Tutorial: https://www.youtube.com/watch?v=F_vq5D6oH5s

Suggested Strum Pattern: You can really use any you want, the most important aspect is understanding the structure

1 & 2 & 3 & 4 &
D D U U D U

The 12 bar Progression

|G7\\\\\\ |G7\\\\\\ |G7\\\\\\ |G7\\\\\\
|C7\\\\\\ |C7\\\\\\ |G7\\\\\\ |G7\\\\\\
|D7\\\\\\ |C7\\\\\\ |G7\\\\\\ |D7\\\\\\

You have the option to change the second bar to a C7 for a "quick change blues"

|G7\\\\\\ |C7\\\\\\ |G7\\\\\\ |G7\\\\\\
|C7\\\\\\ |C7\\\\\\ |G7\\\\\\ |G7\\\\\\
|D7\\\\\\ |C7\\\\\\ |G7\\\\\\ |D7\\\\\\

Once you have mastered this one and you are ready to jam, here is a link on how to jam over this same chord progression, you just need a friend to play the chords and you can plug in these scale ideas on top, this works with anyone playing any instrument, you can have your friend take a piano solo on your blues chords, or you can take a solo on your friend's piano chords, it's all good!
