## FOREWORD

---

When I started this project, I did not realise how many free One-Pagers we had released. It turns out that during 2022 and 2023, we released 131 free resources! Compiling this index took longer than I initially thought. In any event, I hope you find the information herein useful and that it helps you find the resources you need to add depth and verisimilitude to your game.

So often, the tyranny of stat blocks, balancing encounters and preparing suitable treasure—not to mention the adventure and detailing your campaign world—get in the way of adding those cool little details that help immerse your players and their characters in your game world. One-Pagers alleviate that problem by providing you with thematic lists perfect for use at the table with virtually no preparation. I hope you can use the resources listed herein to have more fun with your friends!

### PATREON

Raging Swan Press is on Patreon. If you have enjoyed our One-Pagers and want to support us so we can release more, please join up.

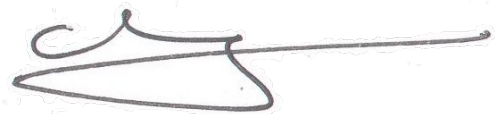

Our Patreon campaign enables us to pay better rates to our freelance game designers while giving our supporters the tools they need to save time and have more fun with their friends. As I'm sure you know, the economics of 3PP are notoriously tight, but Patreon gives Raging Swan Press a way to increase our freelancer rates.

If you sign up, you get our supplements earlier and cheaper than usual. You also get a free and exclusive supplement every month. Even better, you can pledge what you want and cancel when you want. If you are interested in supporting us, check out [patreon.com/ragingswanpress](https://patreon.com/ragingswanpress).

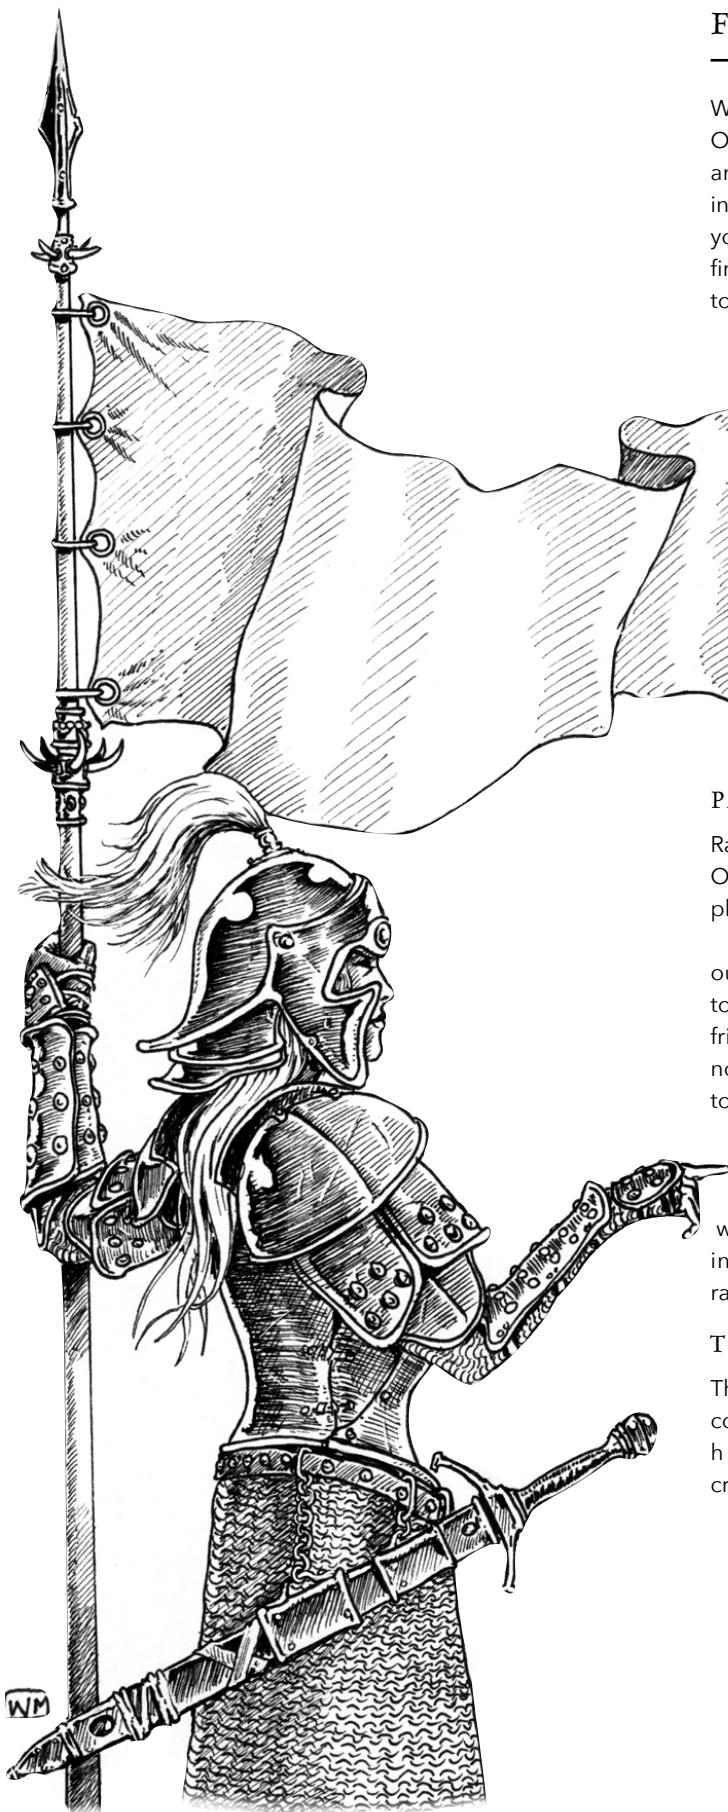

### THANK YOU

# ONE-PAGERS BY TITLE

The table overleaf presents all 131 free One-Pagers released by Raging Swan Press through 2022 and 2023.

The table comprises four columns:

**One-Pager:** The name of the One-Pager.

**Extract From:** One-Pagers are extracts from Raging Swan Press books. This column names the source book.

**System:** All One-Pagers are system neutral. Many of the source books, however, have multiple versions to support multiple games and editions. This column lists which games and systems the extracted book supports.

**Compiled In:** Almost all the books noted in "Extract From" appear in one or more Raging Swan Press compilations. This column notes the most notable compilation in which the extracted material appears.

# TABLE KEY

To save space, the names of some of the One-Pagers and the books from which they are extracted and the system those books support are truncated thus:

- **20T:** 20 Things
- **DD:** Dungeon Dressing
- **ML:** Monstrous Lair
- **UD:** Urban Dressing
- **UL:** Urban Locale
- **5e:** The fifth edition of the world's most popular roleplaying game
- **OSR:** Old School Rules
- **P1:** Pathfinder 1st Edition
- **P2:** Pathfinder 2nd Edition
- **SN:** System Neutral
